American Airmen Safe in Greenland, Ready for Next Hop; No Trace of Italian

Confirmation of Flight May Be Halted to Search for Lost Locatelli.

GENERAL HUNT BEGUN

Davis Flays Ku Klux Klan As Un-American

By United Press.

General Magruder Orders Three Cruisers and Seven Planes to Come Coast of Greenland to Look for Cape Farewell; Seen Off Legion of Italy.

By United Press. WASHINGTON, Aug. 22.—The American world fliers who spanned the ice-clad North Atlantic in an 82-mile dash will hop northward on the west coast of Greenland to Ireland, according to word received at the Army Air Service. The flight from Frederiksdal to Iglofjord is a little more than 300 miles.

"The hop, however, may not be taken if no word is received from the Italian aviator, Locatelli, whose progress has not been reported to the Air Service. The last word received concerning him was when he passed the cruiser Richmond 70 miles west of Iceland.

Air Service officials feel that it may be necessary for the American fliers to delay continuance of their scheduled hop in order to join the search for the Italian. Word has been sent to the five cruisers stretched along the route from Iceland to Greenland to be on the lookout for sign of him.

The scheduled hop will not be delayed because of fatigue of the aviators, air officials said. There is a much better and more comfortable resting base at Iglofjord and the fliers would naturally wish to carry out their plan of reaching it as soon as possible.

Official here were elated over success of the hazardous flight across the northern Atlantic. They believe the worst part of the journey now is over. "I am delighted," Major General Patrick, chief of the Air Service, who planned the world flight declared when Word was flashed through by naval radio that the fliers had successfully concluded their journey. "I am sure that they will come through the remainder of their voyage successfully, although by no means are their dangers yet overcome."

After a short stay at Iglofjord the fliers will hop across to Cartwright, Newfoundland. This is a distance of over 800 miles and will complete their sea-hops. From that point the route lies almost entirely over land. From Cartwright the schedule calls for a stopover for lower Newfoundland, thence to Boston, New York and Washington.

ABORD THE U. S. SHIP RICHMOND. Aug. 22.—Admiral Magruder has ordered the American cruisers Richmond, Raleigh and Barry to search the east coast of Greenland around Cape Farewell for Lieutenant Locatelli, the Italian pilot, who has been reported missing.

The orders, issued at 11:20, Green-land mean time, directed the seven planes aboard the vessels to be launched in the search.

Off for Somewhere.

Mrs. and Mrs. Ray H. Jones of Leavenworth and Mr. Jones' sister, Mrs. Paul Blackstone, left last night for a 10-day trip to Philadelphia and Atlantic City.

One Presidential Nominee to Be Here

Connellsville will be visited by at least one of the nine different nominees for President during the campaign.

Governor O. Nelson, candidate of the newly formed American party, is announced as the principal speaker at the "konzil" of the Ku Klux Klan to be held on Limestone Hill, August 30.

Contest On Between City and Mountain Section as to Best Showing at Road Celebration

Realizing that the members of the Connellsville-to-Farmington Good Roads Association and other residents along the line of the highway are planning to make a bigger showing in numbers at the celebration of Pleasant Hill on Wednesday, August 27, the local members of the general committee are boasting themselves to meet the challenge.

"With this in view, and for the purpose of completing the arrangements for the celebration, a meeting of the committee was held yesterday afternoon at the office of General Chairman A. M. Heimes. Reports were submitted showing that arrangements have been completed for the parade, music, speakers, sports, refreshments and other features on the program."

The Connellsville contingent of the parade will form at Snyderton, at 2 o'clock, with A. S. Silcox, chief master in charge. An hour earlier the Mill Run band, composed of members of the former Leetsdale band, will give a concert in the streets in the village, then lead the automobile parade to Pleasant Hill. The Indian Creek Valley contingent will form at Mill Run and is expected to arrive at Pleasant Hill at the same time the Connellsville parade reaches that place.

H. E. Mason, chairman of the music committee, has secured Mrs. Fred Johnson and Miss Louise Bell, of the Connellsville-to-Farmington Good Roads Association.

LEGION TO TAKE STAND ON NATIONAL DEFENSE MOVEMENT

State Convention Will Demand Speedy Trial of General Ulises.

GREENSBURG, Aug. 22.—Tribute by Cyrus E. Woods, former ambassador to Japan, to the valor and devotion of American Legion men in Japan in the days immediately following the earthquake last September was one of the features of the state convention of the American Legion here today. Another speaker scheduled for today is James J. Davis, secretary of labor.

Resolutions to be presented to the convention included a denunciation of those seeking to hinder plans for national preparedness day. Another resolution will ask that General Ulises, former director of the Veterans Bureau, be charged with misconduct in office, be brought to a speedy trial.

A portion of yesterday afternoon's session of the convention was given over to the hearing of reports of department officers. Of chief interest were the reports of the state adjutant and the finance officer, Adjutant James J. Delight's report showed that the membership of the Pennsylvania Department of the American Legion was 50,048 August 15 of the present year. This figure is several thousand above the 1923 total and places the state second in the nation in point of members.

Twenty-one of the 88 districts in the State increased their membership while 17 dropped slightly. Washington county, showing a membership of 5,144 in July, 1923, is credited with a membership of 5,115 last month. Only two other counties in the State have a membership exceeding 5,000, Allegheny and Philadelphia.

The report of the finance officer shows that the organization is in good financial condition at the close of the seventh month of the fiscal year.

The finance report shows that total receipts for the year ending July 31, 1924, were \$34,205.35. The total disbursements were \$30,435.99, leaving a balance of \$2,770.06. As a cash balance of \$1,295.39 was reported on August 1, 1923, the cash balance at the end of last month amounted to \$1,065.42.

In the disbursements, the largest single item shows \$64,233.75 paid to the national organization in dues.

More than \$4,500 was spent for the national and state conventions, the amount being divided with \$500,000 going to the expense account of the national convention than to the state.

Correll J. Pools of Connellsville, deputy commander of the 24th District, addressed the Legion Auxiliary convention yesterday afternoon. Mr. Pools was introduced by Mrs. Stark, presiding officer, and he made a short address. He told of the American Legion work as well as that of the auxiliary in helping the disabled and needy soldiers during the past five years. He spoke of the loyalty of the auxiliary and of awarding medals to the girls in Lancaster for their duties accomplished. He urged the auxiliary to encourage work among the younger women of the communities.

Tong War Feared, Offices Seized In Pittsburgh

By United Press.

PITTSBURG, Aug. 22.—Fearing outbreak of a long war, Superintendent of Police Brophy today seized the offices of the Hip Sing, who have been trying to form an organization here in opposition to the On Loong Tong.

Brophy ordered the Hip Sing out of the city Wednesday and closed their convention, but the order was ignored.

Former Senate Clerk Faces Forgery Trial

By United Press.

PITTSBURG, Aug. 22.—Arthur J. Lyons of Cory, formerly a clerk in the Senate, is in custody in a federal office for trial next month on a charge of forging postoffice money orders.

Lyon was a clerk in the Senate for 16 years. He was alleged to have stolen a number of postoffice money orders from the Mississippian postoffice and forged the name of Mrs. Emma McClellan, the postmistress, later cashing them.

He is accused of having forged the name of Mrs. Emma McClellan, the postmistress, later cashing them.

On Business Trip East.

J. E. Ortman of Erie, Crawford county, left last night for a business trip east which will include Washington and Philadelphia. He was accompanied by John C. Carlson.

The addressess will be made by the state highway officials, Rev. Luke McHenry, pastor of the United Brethren Church of Mill Run; Attorney H. S. Deamer of Uniontown and officials of the Connellsville-to-Farmington Good Roads Association.

Local thunderstorms tonight and probably Saturday morning, followed by clearing and cooler, is the noon weather forecast for Western Pennsylvania.

Temperature Record.

1923 1924
Maximum 85 88
Minimum 70 48

PARTY LEADERS ARE GOING AFTER VOTE OF LABORING MEN

Despite Endorsement of La Follette by American Federation.

HOLDING TO THEIR JOBS

Is of Rare Interest to Workers That Being Subjected to Unsound and Untried Experiments Will Reassure the Masses Out, Vote Accordingly.

By DAVID LAWRENCE.

Copyright, 1924, by The Courier.

WASHINGTON, Aug. 22.—Both the Republican and Democratic campaigns are going after the labor vote and that notwithstanding endorsement by the American Federation of Labor of the La Follette-Wheeler ticket.

The two major parties feel that the strength of the laboring man in America depends upon sound business conditions and continued employment. They are prepared to demonstrate that votes given to La Follette and Wheeler men or their families, 125 civilian cases and 14 of men now in the military service. Of the 77 cases dealing with World War veterans, 64 were classified as disabled ex-service men. Over 500 individuals throughout the country were rendered some form of service by the Home Service Department during the month of June.

During the month of June the Home Service Bureau handled a total of 216 cases, 77 being cases of ex-service men or their families, 125 civilian cases and 14 of men now in the military service.

Financial relief and assistance granted during the two months amounted to over \$1,000.

The two Red Cross public health nurses were kept extremely busy during June and July. In June a total of 175 nursing visits were made, including bedside, pre-natal, infant and child welfare visits, and in July 244 visits, making a total of 419 for the two months. In addition to the regular nursing service, clinic work was carried on, health centers conducted, classes in home nursing held and many patients taken to clinics, dispensaries and hospitals. The two nurses traveled during the two months a total of 2,125 miles in the carrying on of their nursing and

General Butler Central Figure At Conference

By United Press.

HARRISBURG, Aug. 22.—Governor Flinch's law enforcement conference got under way today with General Smedley D. Butler of Philadelphia, director of public safety, holding the center of the stage. Butler came here from Philadelphia at the invitation of Governor Pinchot to speak at the conference of district attorneys, arranged to promote closer cooperation between the police and prosecutors in the various counties of the State.

More than 50 district attorneys were here in person or represented by assistants. Major Lynn G. Adams, superintendent of the State Police, and General Butler were to tell the police's side of the story.

The Democratic party can operate effectively if given control of the executive and legislative machinery occurring in the eight years of the Wilson administration.

The laboring man is in some respects a radical. Many of the men who are for the La Follette-Wheeler ticket are socialists and radicals who believe that change in the economic order could be accomplished without pain to their fellow-workers but the vast majority of laboring men, judging by past campaigns, are keenly interested in keeping their jobs and having a good wage paid them. Anything that is likely to distract their jobs worries them.

The Republicans in many national campaigns have been able to turn the tide of labor votes in their direction by simple devices of pointing out the dangers of business depression which was supposed to be the accomplishment of a Democratic administration. The Democrats for years felt the handicap because they had not been in power and could not point to a record of good business conditions.

The last Democratic administration of 1922 to 1924 was accomplished by a period of business upturn.

The real objection to Democratic rule is that it had not been tried in many years. The same kind of argument now is going to be used with the workingman to dissuade him from casting his ballot for the La Follette-Wheeler ticket. General Dawes in his acceptance speech referred to the third ticket as symbolizing a system of administration which was "unsound" and "untried."

The workingman wants no experiments that are likely to hurt him.

It is a fact that he doesn't want change except for the better. If he thinks the Democratic party will bring return to the high wages of the Wilson administration, he may lean that way.

If he thinks his present wages are high enough and that employment will be continued by having no interruptions.

To Meet Somersett Gifford.

A party of 40 golfers of the Pleasant Valley Country Club left by automobile this morning for Somerset, where they will play members of the country club there this afternoon in an interclub match.

Of the Coker contingent 18 players are Scotchmen, the remainder being from the city of Somerset.

The city authorities claim the new plant is such an improvement over the old one that it should be desired by that community.

A small fire was built in one of the ovens to dry it out.

On Wednesday, August 27, at 9 o'clock in the morning a hearing will be held in court in Uniontown before Judge E. H. Pepper for the purpose of taking testimony on a bill of equity filed by residents in the vicinity of the plant, asking that the City of Connellsville be enjoined from operating the plant.

The parties signing the petition are Louis Piscelli, George Blackstone and A. C. Brothers.

The city authorities claim the new plant is such an improvement over

the old one that it should be desired by that community.

Its furnaces are odorless, something that cannot be said for the present plant, which is next to complete filthification.

The new building is held to be anything but an eyesore.

It is constructed of brick.

The furnaces are located on the ground floor.

Through which the garbage is dumped for consumption.

It is well lighted.

A toilet has been constructed in the basement for the use of employees.

The stack is of buff brick and stands

many feet high.

Five Undergo Operations.

Five throat operations were performed at the Connellsville State Hospital this morning. The patients were

Mrs. Paul June of Broadford; War-

ren Rafferty of Mount Pleasant; Cal-

erine and John Donovan of Union-

townville; and Daniel Ruge of South-

Connellsville.

C. H. Whiteley Celebrates 80th Birthday Anniversary

One of the most delightful birthday parties given in honor of members of the William F. Kurtz Post, No. 104, Grand Army of the Republic was that of Charles H. Whiteley, widely known resident of Connellsville, held yesterday afternoon from 2 to 5 o'clock at the Whiteley home in West Portal Avenue. Mr. Whiteley was eighty years old yesterday and despite his advanced age he is one of the youngest members of the Post, the majority having passed their eightieth year. Mr. Whiteley's wife, good health, and proved him to be a very interesting host. Yesterday was "Potomac Day," the first and "most of the veterans in attendance having served with the Army of the Potomac. Several local men were also present and as the result friendly and interesting discussions took place among the surviving members of the two armies.

Commander W. P. Clark presided over the meeting which was called to order at 2:30 o'clock. The first number on the program was the singing of "America" by comrades and guests, accompanied by Mrs. Elmer C. McClelland. Invocation was offered by Lyman S. Strickler, the post chaplain, after which Comrade Whiteley was congratulated by his comrades upon the occasion of his eightieth birthday. In responding Mr. Whiteley stated that the post membership was decreasing, one by one, and thanked all for their good wishes and kind thoughts, stating that he would be soon as a boomerang to his friends. The speaker closed his talk by reading a letter from "Huffy" Williamson of Denver, Col., a former well-known resident of Connellsville and a very close friend of Mr. Whiteley. Mr. Williamson is past commander of the George Washington Post No. 88, of Denver, Colo., and is at the present in Washington, D. C., having stopped off in that city en route from Boston, Mass., where he attended the National Encampment of the Grand Army of the Republic. He expects to arrive in Connellsville in a day or two, and while here will be the guest of Mr. Whiteley.

John E. Jones, the next speaker, gave a full account of Morgan's raid. The next period was devoted to an interesting talk by Captain Dunn, who opened the way for a heated session when he stated that the Army of the Potomac did all the hard fighting during the Civil War and was responsible for winning the conflict. While the members of the Army of the Cumberland were in the minority they took up the challenge and told of the many deeds of their army. They gave some very convincing arguments. Captain Dunn told of a letter he had received from a friend of his yesterday, who lives in Canton, Mich., in which he stated that Captain Dunn's letter had been sent to Canton, China, by mistake before it reached him. The speaker closed his talk by extending his comrades an invitation to his birthday party to be held Friday afternoon, August 29, at the Dunn home in South Prospect street.

In speaking of the ages of the members of the William F. Kurtz Post, which averages over 30, Commander Clark stated that Comrade J. V. Ferrey of Philadelphia, stopped in his office enroute from Somerset and stated that while at that town he had been told that out of the regiment at Berlin, Somerset county, there were but two surviving members of Company F, and only one of Company G, at Somerset.

Lyman S. Strickler gave a most interesting account of the battles of Gettysburg, Chattanooga and Franklin, as regards to the turning tide of the war in favor of the Federal armies.

Clark Collins devoted most of his talk to the immigration peril, advocating more rigid laws in reducing the quota of foreigners from looking to our shores. He said that many of the foreigners believe they can do as they please in the United States.

Charles H. Hill during his talk

Members of the Post went to Uniontown this morning on the 10:15 o'clock street car to celebrate the eighty-first anniversary of the birth of Charles H. Hill of West Fayette street, at the home of his son.

Colonel James J. Barnhart took up the challenge of Captain Dunn by defending the Army of the Cumberland, showing that the work done by this army was as important as that of the Army of the Potomac. The talk was interesting from the beginning to the end and proved to be one of the best of the afternoon. The speaker, referring to the election of Dr. L. F. Arnsberg as commander of the Grand Army of the Republic at the recent encampment "Hold It" in Boston, Mass., said that Fayette County should be proud of the "honorables" in it. He closed his talk with the slogan "We closed our ranks."

Royal Neighbors Seal. Miss Kathryn Bipple, daughter of Mr. and Mrs. George Miller, and Walter Miller, son of Senator Harvey Miller, both of Connellsville, were married yesterday afternoon at 3:30 o'clock. The ceremony was performed by Rev. Simon Bipple of Alton, an uncle of the bride, and was witnessed by 150 guests. The bride was dressed in a beautiful gown of white satin and wore a veil. She was given away by her father. The attendants were Miss Shober and John Myers. Miss Mary Miller was the piano. Miss Ruth Miller sang "O Promise Me." After the ceremony, and congratulations lunch was served. The happy couple left on an automobile trip.

Royal Neighbors Seal.

The Royal Neighbors of America held a social last evening at the home of Mrs. A. W. Kern in Morrell avenue. Features of the evening were vocal and instrumental music by Miss Thelma Sease of Connellsville and Miss Olive Lynch and Mrs. Edgar Miller of Uniontown. Refreshments were served by Mrs. Kerns. Among those in attendance was Mrs. Mary Farnsworth of Scotland.

For Convention Visitors.

A. S. Haddock gave a brief talk, stating that a good soldier would be so busy attending to his business that he would not know what was going on about him on the wings if he was stationed in the battle line. He said he believed a great many of the war incidents told by the comrades were read in histories. The speaker was given much applause at the close of his talk.

Comrade Strickler announced that the veterans will be held Saturday night at the State Armory, Greensburg, in honor of the members of the American Legion and the American Legion Auxiliaries in attendance at the convention. Arrangements have been made to take care of 1,000 couples. Miss Gladys Yates of Pittsburgh, has been requested to give a special dance.

Atived Cook Reunion.

At the conclusion of the program the guests inspected Mr. Whiteley's garage, which was pronounced by the comrades as one of the finest in this section. They then assembled on the lawn, where a picture of the group was taken by Miss McClelland, granddaughter of the host. A delicious dinner, served in the dining room, followed. The meal consisted of creamed chicken, biscuits, new lime beans, hot rolls, cold slices, ice cream and apple pie, cake, milk and coffee. The appointments were beautiful in every detail. The table was centered with a basket of yellow garden flowers. While the favors were small silk flags. At either end of the table were glass candlesticks holding unashed candles. The napkins were of patriotic design. Grace was said by Comrade Strickler. Following the dinner Colonel Barnhart in his usual happy manner extended a vote of thanks in behalf of the Post to Mr. Whiteley and his family for the bounteous repast and their hospitality which all so greatly enjoyed and appreciated.

Dinner was served by Mr. Whiteley's daughters, Mrs. W. W. Robinson and Mrs. Elmer C. McClelland, his daughter-in-law, Mrs. J. Clyde Whiteley, Harriet and Jean McClelland, granddaughters, and Miss Edna Townsend of Pittsburgh. All Mr. Whiteley's children were present. His daughter, Mrs. William C. Cook of Birmingham, Ala., R. P. McCoy of Beverly, Ohio, who is visiting at the home of Mr. and Mrs. Arthur E. Karts, was an honored guest at the party. Mr. McCoy is a Civil War veteran and is on his way from Boston, Mass., where he attended the G. A. R. National Encampment. He is a member of the 132d Ohio volunteer Sixth Corps, Army of the Potomac.

Members of the Post present were Commander W. P. Clark, Colonel James J. Barnhart, John E. Jones, Captain Edmund Dunn, Lyman S. Strickler, Clark Collins, Charles H. Hill, A. R. Brashears, John Robinson and A. S. Haddock. Others present were J. Clyde Whiteley, son, W. W. Robinson, and E. G. McClelland, son-in-law, Joe Whiteley, Helen and Charles Whiteley, Robinson, grandchildren of the honored guest, Miss Lynne B. Kinney, honorary member of the William F. Kurtz Post, and A. Arenovsky of the News:

Wineberg in their sports program were:

Olofsson race, Irene Crossland, boy of candy.

Pearl race, William Means of Penn baseball.

Fat women's race, Mrs. George Penn of McKeesport, aluminum kielie.

Lean women's race, Mrs. William Means, silver thimble.

Race for boys, 5 to 12, Bad Critchfield, Uptown, clothespin.

Girl race, 6 to 12, Ingene Shalander, boy, no candy.

Children's race, 3 to 6, Ruth Ray, Mount Pleasant, boy, candy.

Woodwards Hold Reunion.

The annual reunion of the Woodward family was held yesterday at the home of Mr. and Mrs. C. E. Mullin of Mount Pleasant, where more than 150 members of the family spent the day. Officers for the next reunion were elected as follows: John Allen of Smock, president; S. L. Woodward of Charleroi, vice-president; Mrs. Jessie Woodward Ridge of Connellsville, secretary; Arthur Higginbottom of Smock, treasurer. The next reunion will be held on the third Thursday of August, 1936, at the Dawson Driving Park. Dinner was served at noon on the lawn at the Mullin home.

Coming to America in the 16th cen-

tury, the early Woodwards settled in Chester county. Four brothers came to Fayette county where their descendants have been established ever since.

Among the members of the family who were in attendance at the reunion were: Mr. and Mrs. E. M. Wade, Perryopolis; C. J. Scott, Dayton, Ohio; Mr. and Mrs. Frank Woodward, Vandergrift; Mr. and Mrs. G. W. Henderson, Indiana; Mr. and Mrs. Frank Woodward, Pittsburgh; Mr. and Mrs. G. E. Woodward, Monongahela City; Mr. and Mrs. J. D. Thompson, Smock.

Mrs. Ruth Wade gave a reading as added attraction to the reunion.

Wedell Family Reunion.

The third annual Wedell reunion was held at the home of the late Nelson Wedell of West Newton, yesterday with more than 200 relatives from all parts of the country in attendance. Among those attending were relatives from California and Colorado. The reunion, which will be held at the home of George Wedell, near Lewisburg, was opened by George Wedell, 55, oldest member of the family, president and president of the organization. Rev. John W. Wedell of Chicago and Charles Hays of Raymore, Officers of the organization, were present. President, George Wedell; Vice-President, David Wedell; McKeever, treasurer; Mrs. Mayme L. Wedell, McKeesport; secretary; Mrs. Laura V. Kelly, West Newton and historian, James Wedell, Monongahela City.

For Convention Visitors.

A dance will be held Saturday night at the State Armory, Greensburg, in honor of the members of the American Legion and the American Legion Auxiliaries in attendance at the convention. Arrangements have been made to take care of 1,000 couples. Miss Gladys Yates of Pittsburgh, has been requested to give a special dance.

Atived Cook Reunion.

At the conclusion of the program

the guests inspected Mr. Whiteley's garage, which was pronounced by the comrades as one of the finest in this section. They then assembled on the lawn, where a picture of the group was taken by Miss McClelland.

Atived Cook Reunion.

The annual reunion of the Chalfant family will be held Saturday, at Washington Park, Washington, Pa. All members and friends of the clan are invited. Among those who will attend from this section are Mrs. W. W. Kern, Miss Grace Reeder and George Kern of Smithfield and Charles Opperman of Uniontown appear among the 234 medical houses granted by the State Board of Medical Education and Li-

censes.

Smithfield Woman Honored.

A party was held Wednesday night at the home of Mr. and Mrs. S. W. McDowell of Smithfield in honor of the latter's birthday. Games and music were the amusements, followed by dainty refreshments.

Buttermore Family Reunion.

An attractive program has been arranged for the annual reunion of the Buttermore family to be held Saturday at the Abington farm. Many members of the clan are expected to attend and a very enjoyable day is anticipated.

**EVERY INDICATION
OF REVIVAL OF COAL
AND OTHER BUSINESS**

Cidewater Dumps Are at a Higher Rate Than Since March.

RAIL SHIPMENTS GAIN

Writing from Washington Paul Weston, correspondent of the Coal Age says that indications of a decided revival of business were being reported throughout the past week in the central offices in Washington of the car-freight system of fast and slow freights, which are maintained by the government and by more than three hundred trade associations. More than the usual significance is attached to these returns, as the country with its abnormal gold reserve and with unprecedented capital to hand at interest rates which have dropped to a new low level, could burst into a boom almost overnight. The abundance of credit is indicated by the fact that the Federal Reserve System stands at 8% per cent, far above the 4% per cent margin of safety provided by law. The explanation lies in the fact that the banks are so well provided with funds that they do not need to rediscount their loans.

Though the improvement in the business situation has extended over several weeks, the psychology which is a necessary essential to any big return of industrial activity has just begun to crystallize. It is admitted frankly that with it are elements which will may lead to inflation.

Coal already has responded to the improvement in business and is expected to reflect promptly the effects of a fall and winter likely to be marked by a great industrial activity. There has been a sharp increase in tidewater dunnings. This reflects the increase in industrial activity in New England and at other points which secure their coal supplies from the coals from the trade. Dunnings have been at a rate higher than any level reached since March and close to the maximum for the year.

All rail shipments to New England have increased. There has been a gradual increase in the quantity of coal dumped at lower lake ports. The damage dumped thus far this season compares favorably with that of normal years. The movement up the lakes has been retarded because coal has been slow in moving off the upper lake docks, but indications now are that this movement will be rapid from this time forward and there is every reason to expect that the close of navigation will show that this trade has been equal to that of the average year. The better situations in the steel industry and in automobile manufacture are regarded as being of particular significance.

As no one expects the production of coal in 1924 to fall under 150,000,000 tons production at an accelerated rate cannot be delayed much longer. As the railroads are yet handled in excess of 10,000,000 tons of coal for a period of sixteen weeks, there is no serious lack of car shortage. At the same time, it is admitted that circumstances easily could combine to cause a break for transportation difficulties in handling the considerable volume of the year's production which is yet to move.

If a spurt in industrial activity should materialize as the signs now indicate, and should winter weather set in early, difficulties might be encountered. Weather bureau records show that an unusual amount of mild winter weather has been enjoyed during the past seven years. No long-range weather forecasts are made by responsible persons, but according to the law of averages, which has been established during more than the one hundred years for which records are available, the prospects are for a severe winter.

The unknown quantity in the problem is the quantity of coal in storage, but since that probably did not exceed 35,000,000 tons on August 1 there is insufficient margin to carry industries long if they are to be called upon for increased outputs.

Court Rules Cemetery Is a Public Utility

The city of Sapulpa, Oklahoma issued bonds to buy land for a cemetery to be owned and controlled by the city. This was done under the provision in the state constitution authorizing cities of Oklahoma to issue bonds for the purpose of purchasing or constructing public utilities to be owned by such city."

A taxpayer of the city objected to the issue, claiming a cemetery was not a "public utility" within the meaning of the constitution.

But the supreme court of Oklahoma has just ruled that a cemetery is a public utility; that burial places are indispensable; that proper and decent sepulture of the dead is necessary, not only in respect to them but to the sensibilities and feelings of the living.

"It concerns the public health, and if such places were not prepared by private enterprises it would be the duty of the state to act in the promotion," said the court.

Motorists Liable For Damages When Hitting Trains

A verdict for \$3,000 damages has just been won by a locomotive engineer's widow in the Court of Common Pleas at Toledo, Ohio, courts, against a truck owner, on the ground that he was liable for carelessness.

According to the testimony, the truck and trailer which were hauling

ing turpentine from Detroit to Toledo, were in the nature of public carriers, and therefore the truckmen were held to be liable for damages the same as any corporation or persons engaged in similar enterprises.

The testimony revealed the driver of the truck and trailer did not take reasonable precautions for the safety of either himself or the truck or the train.

The family of the claimant has also instituted a suit to recover damages as has also the New York Central

Railroad Company to recover for property damages.

By-Product Plant to Be Built in Mexico

The Mexican mining subsidiary of the American Smelting & Refining Company is planning development on a large scale in a new location in the Sabinas Basin coal area, to include a modern mine and by-product coke plant.

The coal lands owned exceed 25,000

acres upon which there are several veins of bituminous coal some of which are suitable for making coke for smelting purposes. The coke plant will consist of 40 ovens with a capacity of 15,000 to 18,000 tons of coke per month. This and the excess coal production will be consumed locally by railroads, industrial concerns and smelters.

Touring the West, R. C. Gardner of the division freight agent's office of the Pennsylvania System, Uniontown, left Friday night for a tour of the west.

More Rigid Mining Laws in West Va.

According to announcements by J. H. Lambie, chief of the West Virginia Department of Mines, much more stringent mining laws are to be enacted with a view to increasing the safety of work underground in that state.

Chief Lambie recently declared that the open-flame lamp must be discarded. Another provision to be embodied in the new mining code is one

to prevent shooting coal from the solid.

This was an increase of 18.5 per cent over the previous year.

ERSKINE RAMSAY GUEST OF MOUNT PLEASANT ROTARY

Alabama Magnate Is Entertaining Some Associates at Pike Run Club.

MRS. MCLOY ENTERTAINS

Special to The Courier.
MOUNT PLEASANT, Aug. 22.—Erskine Ramsay of Birmingham, Ala., and business associates he is entertaining at the Pike Run Country Club this week were guests of the Rotary Club at their regular weekly luncheon at the National Hotel yesterday. Gives Bridge Party.

Mrs. Arthur McCloy entertained at a bridge party at her Eagle street home Thursday evening. Three tables were brought into play. The rooms were beautifully decorated in pink and white. The first prize was won by Miss Viola Stevenson, the second by Mrs. Charles Evans. The out-of-town guests were Mrs. Fred Hartcock of McKeesport and Miss Anna Ritchey of Scranton.

Murray-Welmer Reunion.
The 24th Murray-Welmer reunion will be held at the Countyline Church, near Jones Mills, on Thursday, August 28.

Meet First Time in 50 Years.
Mrs. Thomas Frazier of New Mexico and Mrs. Jane Harrison of Boston, Mass., were the guests of Mrs. William Shupe last week. It has been 50 years since Mrs. Shupe and Mrs. Frazier, who were cousins, had seen each other.

Personal Mention.
Mrs. Margaret Cort Palmer of New London, Conn., is the guest of her parents, District Attorney and Mrs. N. A. Cort.

Woman Surprises Her Friends

"After a spell of Typhoid fever 7 years ago I began to suffer from indigestion and gas in my stomach and colic attacks. This gradually became so bad that my doctor advised an operation for gall stones. A friend advised me to see May's Wonderful Remedy which I did, with splendid results. My friends were astonished at my rapid improvement. I have no more bloating and can eat anything I want. It removes the catarrhal mucus from the intestinal tract, and relieves the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One does well convince or money refunded at A. A. Clarke's and druggists everywhere. — Advertisment.

Dickerson Run

DICKERSON RUN, Aug. 22.—E. G. Minnich, assistant general manager, and M. M. Smith, master mechanic, of the Pittsburgh & Lake Erie Railroad, spent Tuesday at Dickerson Run making an inspection of the yards and car shops.

Mr. and Mrs. Joseph Purtill, Mr. and Mrs. John Montell and Mr. and Mrs. John Fisher of Portsmouth, Ohio, are spending this week visiting E. H. Holliday at Sandy Hollow, Mr. and Mrs. O. H. Shadelberger of Vanderhill and Mr. and Mrs. Mack Mickey at Connellsville.

Mrs. Harry Gillespie and Miss Frances French are representing the auxiliary of Lewis Emery Pratt Post of Vanderhill as delegates to the Legion convention at Greensburg.

Henry Merritt, a former Dawson resident but now living at Daytona, Fla., is spending several weeks visiting his son-in-law and daughter, Mr. and Mrs. Max Woods of Dawson.

E. J. Buttry and Joseph Ambrose of Liberty have returned home from Monongahela City where they attended the convention of Veterans of Foreign Wars. They were both delegates representing Camp Walter E. Brown Post, Veterans of Foreign Wars Post, Veterans of Foreign.

The latest case of scarlet fever reported is Mrs. J. B. Albright. Several other cases have been reported, and all cases have been quarantined.

W. J. Baker, Miss Jackson, Mrs. Ware, Elizabeth Portney and Pauline McCombs of Scottsdale, spent last evening here as the guests of Mr. and Mrs. Thomas St. John.

Pennsville

PENNSVILLE, Aug. 22.—Miss Vernon Nixon and Miss Ruth Weaver have returned from California Normal.

Samuel Kelly moved his family to Brownsville Monday afternoon.

Paul Miller moved his family from the McMechan house to the Samuel B. Kelly home.

Mrs. C. H. Shouffer spent several days this and last week at Gibsonia, Pa., attending the Pittsburgh Bible Institute Conference, and visiting Pittsburgh friends.

**Appeal Sunday in
Catholic Churches
For DePaul Inst.**

In all the churches of the Catholic Diocese of Pittsburgh, which includes the 10 counties of Western Pennsylvania, the Gospel road next Sunday will recite the miracle of Christ healing the deaf mute. Seven hundred thousand Catholics attending the various masses in all of the 350 churches of the diocese will be urged to contribute to the expansion and maintenance of the De Paul Institute, Brookline, Pittsburgh. It is in this institution of the church that more than 100 deaf mute children are taught to speak normally, ~~and~~ with their fingers but with their lips and throat, and to utter articulate speech, and in this way to overcome nature's handicap. They are also trained in various arts and trades, which makes them the modern scientific inventors, century miracle of today.

For the first time in the history of the Catholic Church in this country, and it is said in the world, the Catholic Bishop, H. C. Boyce of the Pittsburgh Diocese who is the president of the board of directors of the Institute, has sent out a letter to all the priests of his diocese to the effect, "Everyone in the 10 counties of Western Pennsylvania, urge them to give liberally for the erection of a new wing at the institute to cost \$125,000."

De Paul Institute out of a modest beginning 17 years ago has grown to be the largest private training school for deaf mutes in the world. More than 1,000 boys and girls have there

Sold \$3,000,000 Mine for
Just \$125.

"LANDY" PRINTERS
Keown's mine of his birthright now a mass of pebbles was easily sold one by "Landy" McElroy, West Penn prospector, who discovered the McElroy's gold mine at Forestville, and who sold it for just \$125. The purchaser recouped it for \$100,000, and the mine has since paid \$3,000,000 in dividends.

"Landy" is still prospecting.

Learned to read the lips to answer inaccurate speech, to present spoken drama, to converse as naturally that visitors can scarcely believe the children they address live in utter silence, replying in words learned by the scientific placement of tongue lips and vocal chords.

These children are from 238 parishes of the Pittsburgh Diocese more

than 84 parishes are now represented among its 105 children. The children are taught oral speech, no signs being permitted in the school. They are also instructed in 18 branches of vocational training. The boys learn farming, gardening, shoe-making, basketry, chair-caning, metal work and carpentry. The girls learn millinery, sewing, basketry lace-making, cooking and household economy in all its phases.

In addition to the cost of the new enlargements the Institute requires \$40,000 a year for its operation and maintenance. It receives not one penny of state aid. To meet its heavy budget if every family in the diocese contributes \$1, the school will be able to carry on its work during the year.

A portion of the sum collected this year will be given for the operation of the Home for Incurables at Keown Station. This home was recently completed and is now caring for many women suffering from incurable diseases, whose last days it is hoped to brighten with what gifts life may yet have in store for them.

Healthy Women, Happy Homes. Good dispositions succumb. Irritability and anxiety retake the place of happiness, and amiability. Sunshine is driven out of homes in fact, they are often wrecked, and friends are estranged because women suffer with ailments peculiar to their sex. The use of Lydia E. Lichfield's Vegetable Compound will overcome such ailments and restore health and happiness. Do not resort to strong stimulants or narcotics when this great strengthening healing remedy made from roots and herbs is always within reach—Advertisement.

More Government Explosive Available

STATE COLLEGE, Pa., Aug. 22—

One-half pound of explosive, enough to load a freight train 40 miles long, is to be made available to farmers for land clearing and for road purposes, according to a message just received here by the agricultural extension department of the Pennsylvania State College from the United States Department of Agriculture.

The new explosive, pyrolyl, is a part of the vast supply of explosives at the close of the World War that is being turned over for constructive purposes. There is no charge for the explosive itself but the consumer has to pay the cost of proportion and

the freight charges. Shipments can be made only in carload lots which makes it necessary for farmers to get together and pool their orders. Last year various farm organizations in Pennsylvania handled enough pyrolyl, another government explosive, to save the farmers more than \$8,000. Pyrolyl will cost only about half as much as commercial explosives and is peculiarly adapted for blasting stumps and rocks and for work of similar character.

SCOTTDALE WILL PICNIC SATURDAY AT IDLEWILD PARK

Bundes Will Be Suspended, Industry in Park, for Odd Follows Outing.

SPECIAL TRAINS READY

Scottdale, Aug. 22.—The booster parade held last evening for the community picnic, which will be held Saturday, was a success. Several hundred automobiles were in line, motoring coming in from neighboring towns. The parade was in charge of Frank Gance.

The pique mill will pay off employees today and the mill will be closed to visitors, so that any who wish may attend the picnic. The car shops will also be off on Saturday, while the Marion Machine Company, J. W. Ruth Motors, and other places have allowed their men the privilege of attending if they wish.

The first train will leave at 7:45 o'clock, and as soon thereafter as it is possible to have them leave. With good weather it is thought that it will take at least four sections to get the people to Idlewild.

Motorizing the first section will leave at 8 o'clock, and others as soon thereafter as it is possible to have them leave.

As soon as the children from the Boys' Avon Home, who will be the guests of the Scottdale Lodge, will be bussed on the special train. The boys will entertain the picnic folks with their band, the girls with a double quartet and drills. Dancing has been arranged for the entire day. There will be given away free on the ground ice cream, pop, coffee, life savers, cracker jack, chewing gum, balloons, etc.

The last section will stop at Averton, Tarr and Rufusdale.

Registration Date.

Voters who wish to check up and see if they are registered for the general election on November 4 may do so by going to their polling places Tuesday and Wednesday, September 3 and 4. In Scottdale and East Huntingdon township the assessors will be at the polling places from 10 A. M. until 3 P. M. and from 6 to 9 o'clock in the evening. If there is any doubt in the mind of any of the voters as to whether they have been registered it is good policy to make inquiry at this time.

Business College Opens Sept.

The Scottdale Business College will open for its fall term on August 25 at Epiphany Church.

There will be services at the St. Bartholomew's Episcopal Church Sunday as follows: Sunday school at 10 o'clock, even song and sermon at 7:30 o'clock.

Personal News.

Misses Emma, Millicen and Ruth Bieber have returned from Washington, D. C., where they spent a week.

Mr. William Hamilton, a former resident of this place who now resides in New Jersey, is visiting with friends here.

Rev. and Mrs. H. C. Hutchinson and son have returned to their home at Shroyer, Ohio, after visiting with Mr. and Mrs. Elroy Hough.

Miss Mercedes Dalton of Latrobe, was a guest of Mrs. Harry Ash of Connellsville.

Miss Anna Grace Stoner is spending the week-end in Uniontown as the guest of Mr. and Mrs. Charles Stoner.

Her sister, Miss Ruth Stoner, has been the guest of Uniontown friends for the past few days.

Miss Gertrude Bieber has returned to her home after a brief visit with friends in Uniontown.

Wanted Lady to demonstrate household article—Good commission. Inquire Room 14, Webb's Restaurant. Between 7 and 8 P. M.—Advertisement—\$1.50 per line.

Further Improvements in Coke Trade are Noticeable; More are in Early Prospect

Outlook for Increased Consumption Is Becoming More Encouraging.

NEXT QUARTER PRICES UP

Furnaces A Unit That Furnaces Should Not Be Under \$12.50; Consumers Do Not Buy Market Security

Some Furnaces Preparing to Resume

Special to The Weekly Courier.
PITTSBURGH, Aug. 20.—Prospects of the Connellsville coke trade have improved further in the past week. There has been very little activity in selling, sales and purchases, but there was no expectation of any particular movement at the moment, the main point being the outlook for increased consumption, for weeks ago coke production had become closely adjusted to consumption and the coke trade could expect improvement only as conditions in the iron industry should improve.

There is no indication that any furnace now in operation and using Connellsville coke will go out, while several kilo furnaces are already in action in the market as to fourth quarter coke, and one furnace evinces disposition to blow it within a fortnight or so, but not as far as the market for coke for the last four months of the year. This stock is at Riddleburg. The American Radiator Company has been sounding out the fourth quarter market in connection with its Pittsburgh stock, where extensive improvements have been made. Repairs at Dwyer furnace, of M. A. Hanna & Company, which is a blow-out at a simple, smooth age, were nearly completed, and the stock is expected to go in about October 1, it being a regular consumer of Connellsville coke. Two others, one in eastern Pennsylvania, and one at Sharpsville, both using by-product coke at present, may take Connellsville coke for fourth quarter.

Thus, although the fourth quarter is more than a month distant, a good sized prospect has already accumulated.

There is almost unanimity among coke operators as to \$12.50 on fourth quarter coke. Some may be thinking of higher prices, but there are enough quotations at \$12.50 to put other quotations out of the running until a considerable tonnage has been bought. This unanimity is not viewed with unanimity by coke operators, who realize that there is quite a good bit of coke willing to go at the one figure and as yet not such a great deal of demand. Furnaces wishing to buy are evidently playing the market to see if there may not be an operator here and there willing to take \$12.50 sufficiently to swing the order. While furnaces have been talking \$12.50 for fourth quarter, operators do not take that talk seriously.

The spot market on furnace coke is well established at \$2.00. The market has been quotable at that price since about July 1, but for a time there was shading of the price of least substantially. Now there is practically none, a buyer at \$2.00 being generally found for each little lot as developed. There is very little spot furnace coke available as "produced" and consumption has not closely adjusted.

Boundary coke is quite firm in price, the range in general being \$4.00 to \$4.50, but there is no standard coke below \$4.00 and not a great deal at that figure, while there are occasional sales at above \$4.50 and there is no little continued coke of particularly good brand, moving at very considerably above \$4.50. The market is quotable at the same figures as a week ago, but is somewhat stiffer at these figures.

Spot Furnace \$2.00
Spot Boundary \$4.00-\$4.50

Standard anthracite coke is bringing up to \$2.50 for the best quality and when used in open hearths. The price usually includes a very favorable comparison with standard furnace coke at \$2.00, with only 10 cents differential. Coke has been sold at down to \$2.00 and some coke of less attractive quality goes at under \$2.00 on occasion.

The Pittsburgh district coal trade has been gradually improving in point of volume for the past six months. Production is still very low relative to capacity but is decidedly better than the average during April, May and June. There is little increase in the turnover in the coke market, the gain in production being reflected in coal that moves from operators to regular customers, who normally have contracted but this year are settling from time to time. Coal prices have neither stiffened or softened as a result of the heavier movement, which is attributed in part to depletion of stocks and in part to increased consumption.

From week to week the pig iron market has been growing stiffer in general appearance. More than a month ago furnaces began to contend strenuously that the decline in prices, which had begun about the middle of February and had been practically discontinued, was over, and the general tone of the market had

been bearing out their contention, while there is the specific fact that blast and cylinder iron have been at an unquoted market level for about two months.

In the past week or 10 days several producers have advanced their asking prices 10 cents, and one large foundry iron interest has advanced its quotation an even dollar, after making a good sized sale at the going price. The Standard Smoky Mountain Company has bought 12,000 tons of boundary iron in the market for fourth quarter delivery to the Allegheny and New Brighton plants, at \$18. Valley Iron has bought 2,000 tons of eastern Ohio iron at \$18.50, furnace, and 4,000 tons of southern iron at \$17.50, Birmingham, for its Louisville plant, 3,000 tons in all for fourth quarter. All the chances seem to be in favor of a slight advance in the next few weeks, no large advance being considered at all probable, on account of stocks. The market remains quotable at last week's level.

Pittsburgh \$18.00
Birmingham \$17.50
These prices are f. o. b. Valley furnaces, freight to Pittsburg, being \$1.75.

Will Location Power Plants Be Changed?

This proposal to establish near Pitt heads a number of superpower stations for electric supply has fired the imagination of laymen and newspaper writers both here and in England, says the Electrical World. British engineers who ought to know better have succumbed to the suggestion. There is no doubt of the savings in the generation of electricity can be effected thereby; but the trouble is, and it is an insuperable one, that nature has rarely seen fit to put coal and water together. However, for every ton of coal burned under modern power-house boilers, from 600 to 1,000 tons of water are required to condense the steam discharged from the turbines.

That is why superpower stations must in the main be built on large rivers or at tidewater, and that is why the great interior cities of this country and of England are handicapped in the erection of superpower steam stations. Coal is usually obtainable, water is not; and modern stations require a thousand times more water than coal. As a matter of fact, the Waterloo station in New York city pumps more water for condensing purposes than the whole city of New York consumes for all purposes, and the same is true of the Commonwealth Edison Company of Chicago and numerous other public utility companies possessing huge steam generating stations.

A station at the coal mine is ideal, but, like many ideals, rarely works out when put in practice.

IT'S VERY SIMPLE.

Shoppers Everywhere Are Having a Difficult Object in Life.

Thirty people—people who work, earn and save—know this to be true. They are happy because they have a distinct aim in view—a home of their own—sound investments for a permanent income—the protection of a substantial bank account. The Old Reliable Fire National of Connellsville invited your savings account and is always glad to aid you in investing your savings to the best advantage. Advertisement.

Notice to Teachers and Parents of Franklin Township.

All schools in the district will open on Monday, September 1, 1924. Pupils entering the schools will have to be properly vaccinated before being admitted. There will be a teachers' meeting at the Uniontown High School on Saturday, August 26, at 1:30 p. m. F. M. Richmond, D. Barber, supervising principal. — Advertisements—

PERRY CLUB PLANS TO BUILD COTTAGES NEAR VIRGIN RUN

Purchases 12 Acres of Ground to Construct Fine Recreational Park.

VOTERS WILL REGISTER

Names for Vanderbilts Announced As September 3 and 4; Divas and Star Motion Picture Clubs to Play This Afternoon; Other Notes of News

Special to The Courier.
VANDERBILT, Aug. 22.—The Perry Club, through Glenn Goe, has purchased 12 acres of ground at Virgin Run, on the Vanderbilt-Perryopolis road where, it was said, five handsome cottages are to be erected in the near future. The Perry club expects to use the ground for a recreation park and will strive to make it one of the best in the county. Two swimming pools, one above and another below the falls, are to be built, together with tennis courts and a trap shooting field for the gun club. Considerable money will be spent and when all plans have been carried out the club will have one of the finest recreation grounds to be found anywhere.

It was said the work will not get under way until next spring. This will be the second recreation park for the local populace. The Jefferson club has built such a park on the Strickler farm near Jefferson.

Registers Sept. 3 and 4.
The local citizens who expect to go to the polls in November and vote in the Presidential election are requested to register on September 3 or 4. The legal registrar will be at the polls on both days between the hours of 10 o'clock in the morning and 2 in the afternoon and again from 3 o'clock until 9 o'clock in the evening. This will be the last chance for the local voters to register. John J. Shallenberger is registrar.

McKeesport Bumper Unfinished.

Hearing rumor to the effect that the special excursion train, bearing the merrymakers to the annual outing of the Pittsburg & Lake Erie railroad employees to Idora Park in Youngstown, Ohio, on Saturday, August 30, would be stopped and every person aboard vaccinated, numerous persons have changed their plans. When the rumor was investigated, it was announced that the rumor was unfounded. The company officials at Pittsburgh wish to assure all those who will go on the excursion that the train will not be stopped to vaccinate the persons on the train.

At Free Methodist Church Sunday.
Rev. W. Scott Bowman of Uniontown will preach at the morning and evening services at the First Liberty Presbyterian Church on Sunday. The morning service is held at 10 o'clock and the evening at 7:30 o'clock. Sunday school will be held at 8:45 a.m. The Christian Endeavor will meet at 11:15.

Attended Dinner-Dance.

Miss Carrie Arifon and her husband, Miss Margaret Ambrose of McKeesport attended a dinner-dance that was held at the home of friends in Uniontown Wednesday evening. Miss Ambrose and Miss Arifon were roommates at Irving College at McKeesport.

Ball Game Today.
Star Junction will be the attraction at the Dickerson Run Y. M. C. A. grounds this evening, at 6 o'clock. Since being defeated by the local aggregation, the Junctionites have been playing an excellent brand of ball and the id-towners will have to use their best against the visiting team. Durbin will work on the mound for the Tough Valley outfit while Yostock is to receive the hurling assignment for the Star Junction clan.

Lots Digging Well.
J. C. Letts is digging a well on his property on Vanderbill heights. Mr. Letts reports a splendid stream of water.

Christian Picnic Postponed.

The annual outing of the Sunday school of the Christian Church has been held Wednesday at the Strickler Recreation Park at Jefferson. has been postponed. The steady drizzle of the rain left the park very muddy. The date for the outing will be announced Sunday at the church. To Father Church.

The Palmar Friend Class of the Christian Church has announced its intention of painting the church, providing permission is granted. The class will furnish the paint and will do the painting.

Myrtle Olson Meets.

The regular weekly business session of Moose Castle was held last evening in the Junior hall.

Personal Mention.

Miss Lulu Newmeyer was calling on friends and relatives at Mount Pleasant last evening.

George Ruby of South Connellsville, spent Wednesday with friends here.

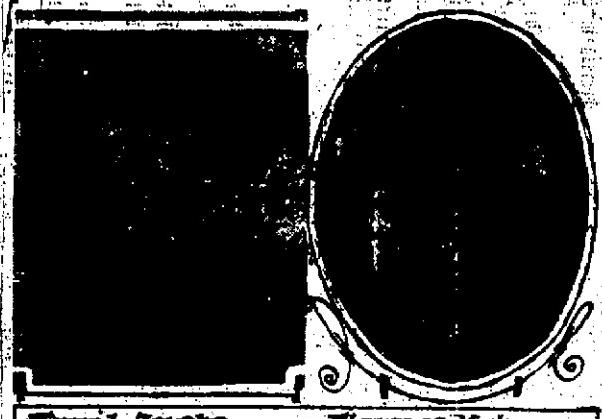

Lewis Marano, Andrew Sepkovic, Albert Fuller, Clarence Fuller, Ralph Cudzich, Peter Abate, Medley Johnson and Joseph Ambrose were among the local persons at Shady Grove Park Tuesday evening.

Clarence and J. W. Lynn of McKeesport, are visiting with John Blair of Perry township for the week.

Toll of Industry in July.
There were in all 139 industrial fatalities in July in Pennsylvania. 71 being in mills and factories, 35 on railroads and 93 in mines. Lawrence county reported the most accidents, 32, while Philadelphia second with 21 and Allegheny, third with 16. Twenty-six counties had no fatal accidents, the remainder ranging from one to 32.

Thin People Need Phosphate Most in Hot Weather

App to Take on Good Healthy Meal Even on Sweating Days If Pure Phosphate Is Taken With Meals.

Druggists Dispense Brown Triple Phosphate Beverage It Is Good Beverage.
This man and woman nervous and continually on the go need more force, energy, ambition and power of endurance, are just the people who will find a helpful friend in Brown Triple Phosphate. It is undoubtedly just what your nerve, blood and bone cells are asking for.

Phosphate is a very important element in every living cell of our body. Without it our systems stop. Men's minds grow dull and often stupid; old-time ambition vanishes and a wretched feeling of exhausted power supplants the indomitable spirit so necessary to success in these strenuous times.

Brown Triple Phosphate yields the needed diet with phosphorous food elements that are easily digested so that one broadminded druggist says:

Let those who are weak, thin, nervous, anaemic or run-down, take a natural, undiluted substance such as Brown Triple Phosphate and you will soon see some astonishing results in the increase of nerve, energy, strength of body and mind and power endurance.

Brown Triple Phosphate (the inexpensive triple phosphate) is for those who are anxious to impress their health, is dispensed by all leading druggists in the original package—

BIG BUSINESS

A real estate man was plainly worried and his wife asked him to tell her about the deal. It seemed that he had fixed it up to sell a man a loft building, a marble yard, with dock privileges, a factory site, and a summer garden, and to take in part payment a block of frame tenements, a small subdivision, an abandoned lime kiln and a farm.

"He's got a \$60,000 mortgage on the little building," explained the real estate man. "I am over a second mortgage on the subdivision. Get me \$1,000. I get you," responded his wife. "But what is in the hatch about?" "Well, I want \$4 in cash,"—about \$600.

His Number.
When we're little and spend our days at home a shift of furniture is a real event. So small Polly was keenly alert when mother brought to the dining room from the attic an armchair which she placed at one end of the table.

"Oh, mom," quipped Polly, "what's the big chair for?"

"It's for the head of the family."

"Dad's the little girl exclaimed. "You put it in the place where daddy sits."

COUNTRY Gentleman.
Continued curtailment of activity at the iron and steel plants gave the United States Geological Survey a reflected by another decline in the production of coke. The total quantity produced in July was 2,814,000 net tons, of which 2,355,000 tons were from by-product ovens and 468,000 tons from beehive ovens. Comparison with the figures for June shows decreases of three per cent and 18 per cent, respectively. The present monthly rate of output by by-product coke plants is 2% per cent below the average for 1923, and is at the lowest level reached since early in 1922. The average daily output in July was 75,871 tons, a decrease of approximately five per cent. The July production was 8.8 per cent of capacity.

Two new plants began operations for the first time late in the spring, bringing the total number of plants to 73. Of these plants 62 were active in July and five were idle throughout the month. Of the total output, 80.7 per cent was produced at plants affiliated with companies operating iron and steel plants.

Activity at the beehive ovens continued to decline steadily throughout the month and the total output 18,600 tons—was barely 26 per cent more than the weekly rate a year ago.

In comparison with June 1923, when the beehive coke industry was in a state of practically complete prostration, there was an increase of slightly more than 100 per cent.

Exclusive of screenings and breeze, the monthly average of production in years 1917-22, inclusive, and in the last three months of 1924, was as follows:

By-Product Ovens

1917 1,776,000 2,744,000
1918 2,085,000 2,842,000
1919 2,095,000 1,638,000
1920 2,355,000 1,638,000
1921 2,355,000 1,638,000
1922 1,646,000 482,000
1923 1,879,000 711,000
1924 812,000 1,497,000

June, 1924 2,616,000 531,000
July, 1924 2,352,000 446,000

To produce the coke manufactured in July required the carbonization of 414,000 net tons of bituminous coal. Of the total, 3,279,000 tons, or 82 per cent, were used in by-product ovens and 735,000 tons, or 18 per cent, in beehive ovens.

Thus the rate of coal consumption by the industry has decreased 34 per cent since January 1924 and is now 36 per cent less than monthly average for 1922 and 39 per cent less than that for 1923.

Assuming a yield of merchantable coke of 69.6 per cent of the coal charged in by-product ovens and 63.4 per cent in beehive ovens, the monthly average consumption of coal during the period named was as follows:

By-Product Heaters

1920 1,401,000 2,665,000
1921 3,421,000 1,167,000
1922 4,458,000 2,858,000
1923 4,021,000 1,300,000
June, 1924 375,000 725,000
July, 1924 3,279,000 446,000

The KITCHEN CABINET

(O. 1924, Western Newspaper Union.)

The grandest of home ideals are those which are performed within four walls and in domestic privacy.

DIRECT GOOD THINGS

For those who enjoy rich dessert, the following will be appreciated:

Cream Tarts.—Beat

one egg yolks, add one

cupful of sugar, three

tablespoons of bread

crumbs which have been

well mixed with a tea-

spoonful of baking pow-

der. Add one-half pound

of dates cut fine, a half

pound of walnuts and

one-third beaten whites of

one dozen eggs. Mix flavoring as

one likes. Beat ingredients and put together with whipped cream sweetened and flavored.

Pineapple Fluff.—Beat

the whites of three eggs until stiff, add three

tablespoons of pineapple—the

grated kind. Beat together and put into

almond buttered cups. Set the cups in hot water and bake until a light brown. Turn out of the cups and serve with whipped cream. Garnish with a little preserved pineapple.

Maple Parfait.—Beat

four egg yolks

light and pour over them one cupful

of hot maple syrup, cool until smooth

and thick, stirring constantly; add a

pinch of salt. Cool and add the stiffly-beaten whites of four eggs. Let stand in a mold packed in ice and suit for three hours.

Peanut Butter Cookies.—Take six

tablespoons of fat, one-fourth of a

cupful of peanut butter, one cupful of

mincemeat, one-fourth of a cupful of

sugar, one-half teaspoonful of soda,

one teaspoonful of baking powder and

four enough to make a mixture to roll.

Out and bake in a moderate oven.

Tuna Fish Salad.—This is such a

delicious salad that it may be used

by those not fond of such food.

Mix a can of tuna with three table-

spoonsful of chopped green olives and

enough mayonnaise to season. Serve

in crisp white lettuce.

Linen Sausage.—Place a quart of

milk in a double boiler, season with

pepper, celery salt, and salt. Grate

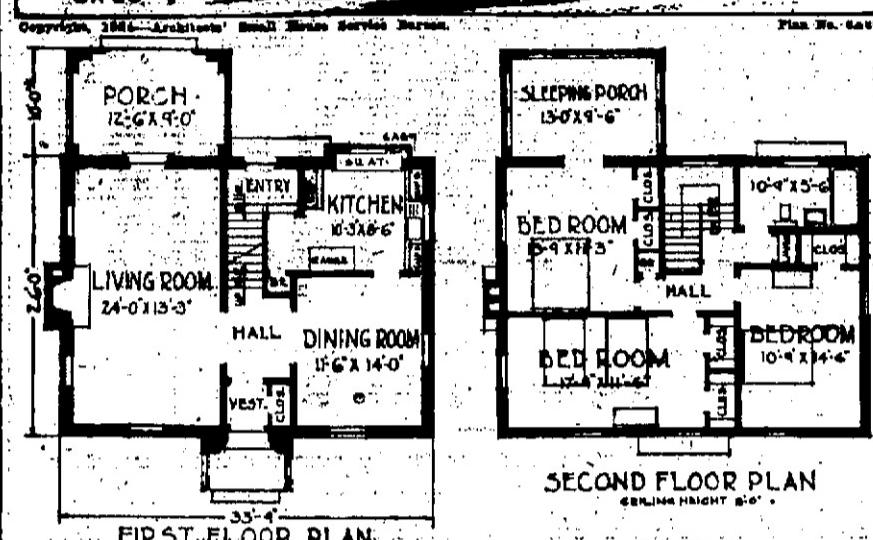

a small onion, allowing the juice to

drop into the milk, add a dozen oyster

crackers well crumbled and two table-

spoonsful

SIX ROOM HOME—MASONRY WALLS

If all the architects in the country were obliged to choose the most satisfactory plan from among those submitted, it is probable that the majority would be cast in favor of this particular type, which has been a favorite in the United States for centuries.

The design follows closely the Spanish type of architecture, which is characterized as far as domestic building is concerned, by flat stucco walls, covered with very little or no overhanging roofs, and with ornamentation in the form of plastered and wrought iron railings.

The plan is cast out American. No Italian ever saw such a plan. Construction is of poured concrete foundation wall with cement tile, concrete block, or clay tile for the superstructure. The interior partitions are of wood. The girder support for the floor joists is of steel, and the roof is sheathed. It is supported by steel columns, thus making possible a very permanent type of construction.

The exterior is Portland cement stucco finished as the home builder may desire to have it, but recommended to be sand floated. The

Copyright, 1924, Architects' House Plans

Windows in the house are casements swinging in.

The house can be accommodated on a 40-foot lot. The porch may be placed at the side, if desired, in which case a lot 50 feet in width would be required.

The house has been planned to give you the advantage of all modern conveniences in construction: the use of stock materials; simple, yet sound methods of building. If your requirements are not too high the house should be inexpensive to build.

EDITOR'S NOTE: The plans for small houses are furnished by the Regional Bureau of the Architects' House Plans Service, Inc., of the United States, Inc., an organization made up of the representative practicing architects from leading architectural firms throughout the country. The Bureau is controlled by the American Institute of Architects, and by the Board of Directors of the Department of Commerce. The Bureau is now preparing its new periodical, "Public Works," and has as its purpose the furnishing of a very complete and detailed information concerning public works. For information regarding the blue prints and specifications, address the New York Office of the Bureau, 100 Broadway, New York, or the Pittsburgh office, 100 Broad Street, Pittsburgh, Pa., or the office of the Bureau in your city, or department to answer some builder's questions as no charge. Enclose stamped addressed envelope.

Editorial Note: House Builders' Office.

been blown in during the week, and about 400 more being scheduled to work next week.

A tract of approximately 8,000 acres of coal in Jefferson and Conemaugh townships is now being developed from Daniel B. Zimmerman and Knapper & Good by William S. Kuhn of Pittsburgh and A. C. Chivers of New

England.

Chairs Stillwagon purchases a controlling interest in the Young Brewing Company, and at the annual meeting elected president Joseph Tippman, treasurer and George Fushner, secretary.

There are twenty-five cases of typhoid fever in Connellsville and 100 cases of diphtheria. Dr. J. W. Gandy attributes the prevalence of the disease to dry weather, followed by heavy rains which washed germs into streams and wells supplies.

President of the Elks, Stillwagon, Harry Stout and D. K. Smith, three dead exalted rulers of the Elks, are on exhibition prior to being hung on the gallows. Dr. John J. Strode, Dr.

L. P. Ruth is prime mover in a new bank for Connellsville to be known as the Colonial National Bank. Rockwell and E. M. Clark are also heavy stockholders. Harry B. Schenck will be cashier.

Owen J. Shoad, a brakeman on the Pennsylvania Railroad, died at Lancaster, Ohio, Saturday, July 28, 1924, of a heart attack. He was 37 years old.

The McNamee family holds its regular meeting. The oldest member present is James McNamee, 75 years old, a cashier of the National Bank at Washington.

CONNELLSVILLE, AUGUST 24, 1924.

Detailed report of the Connellsville coke trade for the week ending August 18, shows a total of 17,614 ovens in the region of which 12,000 are blast and 5,614 are blast and coke producers. Total estimated production of 107,687 tons. Shipments for the week total 5,981 cars, a net increase of 182 cars as compared with the previous week. Tons are: furnace coke, 1,000; foundry coke, \$1.15; crushed coke, \$1.40.

The coke strikers have given up, but the strike continues. The operators are still working and coke production is increasing steadily. It is said that the operators will increase wages soon.

All is not harmonious in New Haven. One of the officials in control is accused of misconduct but the council is informed that he cannot be dispensed with until his term expires. M. C. Miller, a member of the council, is accused of being a fire marshal.

Council sets aside \$600 for the use of the Board of Health, which will be used to help those afflicted with rheumatic disease. Colonel A. J. Hill, of Vanderbilt, fatally shoots himself.

Frank Curtis, a New Haven gardener, takes six bats and three aconites in taking part in the "Unknown Fair." One "leaf" of cabbage weighed 30 pounds.

John Beader of Pittsburgh street is dead, shot by a pet dog which goes suddenly mad.

A unique chair was made entirely of polished horns brought back from the West by L. M. Morris, a Baltimore & Ohio passenger, in an exhibition at the exposition.

CONNELLSVILLE, AUGUST 24, 1924.

Detailed report of the Connellsville coke trade for the week ending August 24, shows a total of 28,167 ovens in the region of which 18,658 are in blast and 9,509 are blast and coke producers. Total estimated production of 134,443 tons. Shipments for the week aggregated 5,647 cars.

The coke trade is beginning to show signs of improvement, 6,000 ovens having

At the Theatres

The Paramount

"THE AVENGER," a different kind of western drama, provides splendid entertainment today and Saturday at the Paramount. Big Boy Williams is seen in the leading role.

An amazing case of mistaken identity which developed into one of the most thrilling series of incidents recently occurred in the far west.

During a terrific rainstorm Rockwell Thorne and his fiancee, Millicent Byrne, were driving near Redwood when the car apparently broke down and the two sought shelter in the old Sherwood ranch house, which was occupied by the old caretaker.

Whatever plans were in Thorne's mind as they entered the old house were halted by the sudden appearance of a younger man whom they mistook for a new ranch hand.

How Thorne attempted to force Miss Byrne to marry him through his threat to foreclose a mortgage that he held on the Byrne home and how the ranch hand in the role of an avenger thwarted his plans and was finally banished as a wealthy ranch owner are part of the novel picture play.

"The Avenger," which is to be shown

at the Paramount.

Farm Calendar

The Pennsylvania State College Timely Reminders From

Corn Ear Worm Damage—Considerable damage to sweet corn has been reported from various sections of the state. Dusting with a mixture of 40 pounds of arsenate of lead and 40 pounds of sulphur or hydrated lime as a carrier in the control measures recommended. The dust should be applied just as the silk begins to form because the young worms feed on the silk for a short time before they go into the ear.

Raspberry Pruning—if the old canes have not been cut out of the raspberry, remove them now and destroy them. Not only are diseases communicated from the old canes to the new, but the presence of the old canes retards the growth of the new.

Green Feed for Poultry—Many poultry flocks suffer from a lack of succulent green food during the summer months. This is true even when the flock has free range. Hens will not eat grass that is dry and hard.

A lack of green food also affects the growth of the pullets and affects the winter egg production. Supplying succulent feed in the form of cabbage, rape, swiss chard or rutabaga from the garden will solve the green problem.

Budding Fruit Trees—The time for budding has arrived for fruit men who grow their own seedlings and wish to propagate their stone fruit trees for next year. This method of securing your orchard stock is cheaper and gives you varieties that are "true to name."

Prepare Fruit Storage—it is a good plan to thoroughly clean and disinfect the storage cellar. Remove the old rotten fruit, apply white wash or some disinfectant, and give the room a thorough airing.

The story concerns the adventures of William McKay, the last of a distinguished Kentucky family, which has been killed off in a feud with the Canfields. Buster, of course, is William, and his serious face and naive expression make this Southern Rolfe a character long to be remembered.

The story takes place in the early 1800's, which has given the producers a wonderful opportunity to use the humorous aspect of history.

They have certainly not missed a single chance. The sequence showing Buster's ride on the first steam train in America is refreshing. It's real history, but, better yet, it's real fun. It furnishes one of the rarest comedy scenes ever made. Parents who think their children might get a distorted idea of the actual happening need not fear, for "The Rocket" and its coaches are shown with true fidelity.

Natalie Talmadge, Buster's wife, who returned to the screen to appear in this film, is excellent in the role of the Canfield girl with whom the "last of the McKays" falls in love.

Owen Moore will be seen in "Thundergate" Monday, Tuesday and Wednesday of next week.

The Orpheum

"OUR HOSPITALITY"—On view today and Saturday at the Orpheum presents Buster Keaton in the stellar role.

Buster has opened a new vein of comedy in this picture, and the spectators last night gave every evidence of approval.

The story concerns the adventures of William McKay, the last of a distinguished Kentucky family, which has been killed off in a feud with the Canfields. Buster, of course, is William,

and his serious face and naive expression make this Southern Rolfe a character long to be remembered.

FOR CLEAN WOMEN

Knowledge of personal hygiene is important and if you care to learn some very surprising truths about this absorbing subject get a six ounce bottle of Kojene for 20 cents at Union Drug Co. or any progressive druggist.

It's the world's most powerful non-pomaceous antiseptic and is thoroughly effective as a germ destroying wash for feminine purposes.

And, all women who desire immaculate cleanliness should bear this in mind:

If Kojene isn't the finest and best antiseptic you ever used—your money back freely and cheerfully.

Four times as powerful a germ destroyer as pomaceous Carbolic Acid and has nothing but the most delicate effect upon the most delicate membrane.—Advertisement.

Ohiopyle

OHIOPOLE, Aug. 22.—M. W. Chittester, Western Maryland agent, wife and three sons, left Tuesday on a two weeks' vacation in the eastern part of the State. Relief Agent Clark will work in Mr. Chittester's absence.

On a warrant sworn out by Canon, the Rev. Dr. William Sheetz, rector of Christ Episcopal Church, Brooklyn, and president of the New York Civic League, Luis Angel Firpo, American heavyweight champion, was arrested, in violation of the law, brought to New York with his wife, Grace Lourdes Picart, and that he swore that she was merely a shipboard acquaintance. The woman was deported to Havana, but Firpo was allowed to land. The minister charged that Firpo and the woman lived together in New York during his fight with Jack Dempsey. This photo shows Firpo with the woman on shipboard.

The Sporting World

BY JAMES H. DRISCOLL.

Capstan Glass Team Will Play Crucible For Chance To Meet Uniontown Elks

Winner of Contest Will Play Semi-Pro on Percentage Basis, Agreement.

GAME SCHEDULED AUG. 30

The Capstan Glass baseball team is now in the running to clash with the Uniontown Elks. At a meeting in the county seat yesterday Manager William Percy signed up to meet the Crucible team, seemingly the certain champion of the Pleasant Valley League in a preliminary game to the Uniontown-American game on Saturday, August 30. The winner of that game will meet the Elks and Capstan, with its long string of victories behind it, feels certain of drawing a wrench into the smooth running Crucible machine.

Both clubs have good records and each has been pressing the Uniontown organization for a game. Rather than have both teams on the Elks made the proposition of an elimination game, the victor to meet the semi-pro aggregation on a percentage basis. This proposition was satisfactory to both Capstan and Crucible and the clash between those teams will be on Saturday, August 30. The double-header offered fans that day will begin at 3 o'clock. The games will be "boner day" attractions.

Capstan has been having a great season and expects to easily score its victory over the 50 mark.

Organized as a purely amateur club, it has maintained that standing throughout the summer. In one game

with a semi-pro team, the Fairmont Club the glass blowers proved themselves far superior, winning 7-1.

DIVADAS STRENGTHEN FOR CAPSTAN; WILL PLAY HERE ON MONDAY

The Divadas Independents will be at South Connellsville with blood in their eyes on Monday evening when they will stake their best against the Capstan Independents. The game will witness one of the most hotly contested and bitterest fights of the year when the two teams clash. The glass blowers have chalked three defeats against teams from the Youngstown district twice over the Divadas Independents and once over the Dickerson Run railroad outfit and are confident of adding another to their list of victories. The tri-town outfit, with revenge as the motivator, will send its best into the lineup against the glass blowers.

The line-up announced by the Divadas management last evening will be as follows:

LaPorte, outside field; Arthur Brown, third; Newell, left field; Miller, first; Shallenberger, short; Durbin, right field; Whipple, second; Edwards, catcher; and Maudette, pitcher.

Shallenberger is the second hurling selection for the tri-town clan, with Durbin as third.

On paper the team the Divadas outfit will present on the field should take the measure of any club in the coke region. LaPorte and Brown are two Nathan College stars; "Rock" Maudette formerly twirled for the Harrisonville Consumers and is reported as the leading southpaw in amateur circles. Edwards hails from Broad Ford. Miller formerly played for Stewart, Newell, Shallenberger, Durbin and Whipple are old heads at the game and hall from the tri-town district. Every player mentioned above is regarded as a hard hitter.

A large delegation is expected to witness the game from the Vander-

wall district and close to 2,000 persons

ENTRIES COMING IN FOR OPEN TOURNEY HERE SEPTEMBER 1

Entries are beginning to come in for the Connellsville Tennis Association's first annual open tournament which will begin here on September 1, play to continue throughout the second and third. The first entrant was Harold G Sturgis of Uniontown. The invitation committee has already sent out a number of bids and replies to these are expected within the next few days. Those considering entering especially Connellsville players are asked to file their entries as blank as possible so as to facilitate the work of the committee on drawings.

The cup being offered the winner of the tournament is an exceptionally beautiful one. It is being offered by the Connellsville Kiwanis Club. It will become the permanent possession of the player winning it three times

"Hans" Wagner May Play Against Glass Blowers on Saturday

Hans Wagner may be born Saturday when the Carnegie Independents of Pittsburgh display their wares before the Capstan Independents at the South Connellsville grounds. Negotiations are under way to set Hans to play first base for the visiting aggregation and it was reported that prospects are bright. Manager Percy wants the visiting team to bring a real ball club here so as to give the fans an exceptional brand of baseball. With the addition of Hans Wagner in the line-up it would be considered much stronger.

Alexander will do the hurling for the Capstan side on Saturday. "Rube" will go out for his 27th victory. The game will be called at 3:30 o'clock.

Of Interest to Fans

Splitting a double-header with Boston yesterday resulted in sending the Pirates five full games behind the New York Giants, while those same fellows were winning two from St Louis. The victory by Pittsburgh was the first since the departure of McGraw and his hordes. The Bucs trudged away the first game in the ninth when four runs gave Boston a 7-8 victory.

The result of the second Pittsburgh-Boston clash was 5-0, Yde blanking the Braves.

Brocky kept on winning, defeating Chicago 2-0 and consequently in half a game, closed off the second-place Pirates.

The King nine defeated the Davidsburg nine in a game at South Connellsville Thursday morning, the score being 0-0.

Mill Run defeated Normalville in a slugging match at Mill Run last evening 14-2.

Pitcher Marvin Steggers, former collegian, who has been pitching for Rochester in the International league, has returned to Grand Rapids where Rochester got him last season.

Pitcher Cliff Markle, who had a record of 11 victories in 13 starts this season before he was sold by the St Paul club of the American association to the New York Yankees, has quit organized baseball.

A large delegation is expected to witness the game from the Vander-

wall district and close to 2,000 persons

Mike O'Neill Worried

Over His Easy Money

Leo Browne, the former Jim pirate, tells his story on Mike O'Neill, manager of Syracuse, then in the New York State league. It had become a custom on the part of the management of a large industrial plant in a small city to have two of the league teams play a regular game once or twice a month at the factory that the employees might have a treat. Syracuse was one of the teams chosen for the game and O'Neill collected a check for \$600 for his team's end of the exhibition.

The opposing team by the end of the second inning had piled up a score of 14 to 0. O'Neill went along even forgetting to change pitchers, when some one finally asked him what the heck he was trying to do.

"Oh I'm not worrying about the game," answered Mike. "It's whether or not this check is good that's bothering me."

Violent Outbursts

Show Real Rivalry

Violent outbursts on the baseball diamond, such as occurred at Detroit, when a game had to be forfeited to the New York Yankees, are to be deplored, of course, writes Harry B. Smith in the San Francisco Chronicle.

But for all that, and while I'm not in the least condoning the plot to a certain amount of fighting spirit is certainly needed. Baseball fans must have communicated to them the feeling that rivalry really exists, that the players on this team or that one have other thoughts than the payday at the start of the month.

Outbursts of this sort certainly do harm that impression.

And for that reason I'm inclined to think that while order must be preserved, an occasional dash of spirit isn't going to do baseball any great harm.

Perhaps that isn't consistent with the general idea that baseball must be conducted as a gentlemanly sport, but it's the way I feel nevertheless.

Baseball can't altogether be a hammy sport. It couldn't be and still have secured a strong grip on the populace as is the case.

\$1 Down will put a McDougall KITCHEN CABINET in your Home. Order it TODAY.

Save "Her" Time and Miles of Steps

A Kitchen Cabinet Is a Necessity

The first kitchen cabinets were regarded as luxuries by most women. They were really as much bother as they were worth. Today, however, scientific space saving and arranging has made the kitchen cabinet a necessity. Homes are more compact than heretofore and every bit of space must be utilized. Then, too, they save your wife's strength by saving her miles of steps daily. If your home is without a kitchen cabinet—get busy and get one. They mean as much to you as an automobile does to a traveling salesman.

Some Features of the McDougall

Some cabinets may cost more than the McDougall, others may cost less, regardless of the cost McDougall offers the best value at any price. There is a size and style for every taste and a wide range of prices to fit every purse. It is carefully made of selected hard wood, carefully fitted and reinforced where the wear is greatest. It is the only cabinet with the Auto Front and has other features that are exclusive to the McDougall. Let us demonstrate to you. Remember—\$1.00 down will put this cabinet in your home.

A Demonstration will show you a short cut to the Solid Comfort

Bobbed Hair Has Misses' Approval

Style Combining Charm and Youth May Never Pass, Writer Asserts.

Disputing prophecies have entered into the even existence of the bobbed hair, with dire predictions for its future noted by a fashion correspondent in the New York Herald-Tribune. From London comes advice that the long-haired lady is coming back to her own and that, of all the bobbed styles, only the boyish bob is retaining its place in the domain of fashion. In Paris the modiste is waging a savage attack against short locks inasmuch as short hair means small hats and small hats sharply limit the scope of the impudent milliner. And in many quarters of this country numerous self-appointed authorities have taken it upon themselves to emphatically announce that the kind of the bob has passed.

In nearly every instance these prophecies may be set down as pure guesswork, emanating from the most obvious sources. Military and manufacturers of many culturé accessories have set their faces firmly against bobbed hair and from ardent motives. And their declarations to the effect that the mode is passing fall in fertile ground when they reach the ears of the lady who is either too timid to take a radical step which, if unsuccessful, would take many months to reverse, or else is frankly unattractive in the youthful circumscribed.

The truth of the matter is that the bobbed mode has not passed nor in all probability will it ever pass. Any style which has charm and youthfulness—youth—will command it is easily disclosed from the ranks of fashion. It reaches the danger point when it descends from a fashion to a fad at which time a temporary reaction usually sets in against it, but its vogue has been predicated upon substantial grounds—the reflected passes and the mode becomes a fixture. The bob has arrived at this critical stage and counter currents are inevitable, but these will be transient and momentary for bobbed hair is secure as a permanent type of culture particularly adaptable to youth.

The boyish bob is the outstanding vogue of the moment and it is subject to minor interesting modifications. One for the woman who is contemplative in her first venture into the short hair cut, this type of culture is inadvisable. And for this reason. The many years of long hair have trained the hair to grow straight out and the straight cut will not permit the hair to lie smoothly at first. The straight cut should be the initial bob and a few weeks of this mode are sufficient to distract the hair from its habit of rear and cause it to become more tractable.

The boyish and the ultra-boyish cuts are varied in numerous and diverse ways. The hair may be so clipped that it reaches below the lobes of the ears or may be sheared so closely that the ears are partially visible. The part may wander from one side to the other, or it may rest obversely in the center. In some instances the bang replaces the part. It is immaterial whether the hair is straight or wavy for the boyish bob is this type of culture can be achieved with hair of either character.

Black Silk Beaver Is New Fashion for Fall

One of the newest hats for fall is of black silk beaver with a cockade of black "striped" ribbon.

Feather Trimmings One of Season's Fashions

Fashions and feathers are synonymous this season. Introduced several months ago, feather trimming is somewhat slow to begin taking up by the general feminine public, but at the moment it's one of the salient points of the fashion of summer...

For, while it is perhaps better in more delicate colorings, while one sees the vivid tones used on wraps or to finish the ends of scarfs, feather-trimmed frocks of white or pale pink chiffon or crepe de chine are really lovely and are chosen by a number of the smartest women.

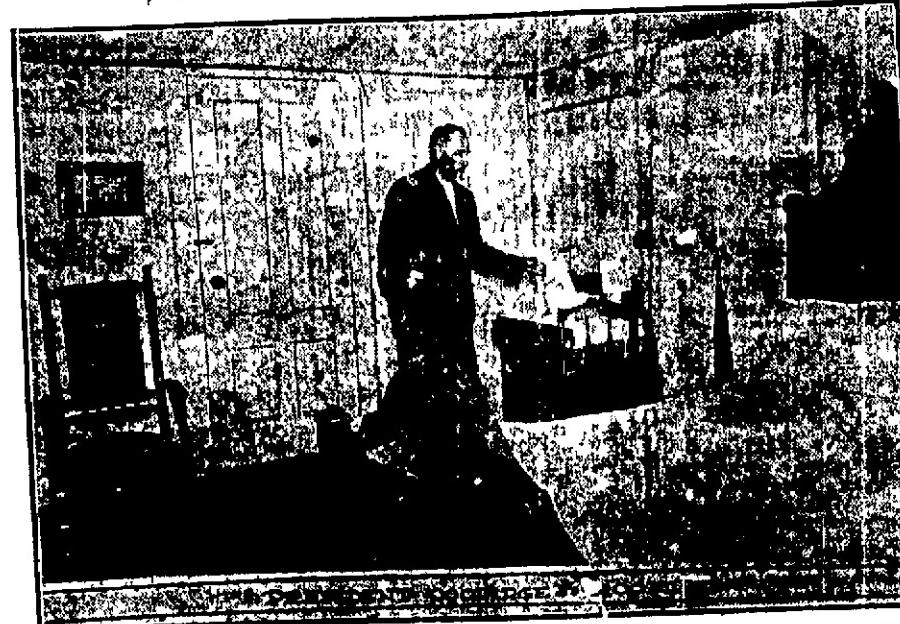

Frequently the feathers are clipped to suggest a flat band which at a distance gives the effect of fur, but quite often they take the form of delicate fringes.

VERY PECULIAR

Pop—that's funny! That tree has a bark and we have it, but the tree hasn't!

NO RUNNING WATER FOR PRESIDENT COOLIDGE.

Colonel John Coolidge, father of President Calvin Coolidge, is shown in the simple bedroom the President occupies in his father's home while on his vacation in Plymouth, Vt. There is no running water in the house, and the plain wash bowl sufficed the President's needs.

Significant Words on First American Coin

After the American colonies had achieved independence, the provision of a coinage became their own sovereign right. The devices for the first coins struck by authority of congress were prescribed by a committee of that body under the following terms: "On one side of which piece thirteen circles linked together, a small circle in the middle with the words United States around it, and in the center 'We Are One.' On the other side of the same piece the following device: via a dial with the hours expressed on the face of it, a meridian sun above, on one side of which is to be the word 'Eagle,' and on the other the year '1787,' below the date, the words, 'Mind Your Business.'"

The types are interesting as a commentary on the state of mind of the times. The political hope, for it could be only hope still at that time, of an inseparable union, expressed in the obverse type, was probably not less prevalent than the caution so graphically set forth by the other that "Time is Flying," so "Mind Your Business" affairs. This terse expression of practical sense because so much in the spirit of Poor Richard, has won for the coin the name of "Franklin cent" but Franklin probably had nothing to do with the designing of it.

Early New Englanders Fond of Their Beans

In the absence of positive information on the subject of the origin of Boston baked beans in their place on New England breakfast menus this conjecture is offered: In the early days of the Plymouth colony people did their baking in brick ovens. These ovens were heated on Saturday and enough baking for the week was done at that time. As the oven cooled off the temperature was just right for beans which need long slow cooking so they were thus ready to be eaten on Saturday night and were probably put back into the oven to keep hot and these were eaten for breakfast on Sunday morning. Many New England people reheat them and eat them for breakfast each morning until they are gone, and some people who hate them on Wednesday continue to serve them for breakfast until the Saturday beans are baked. In northern New England beans have been baked from time immemorial in a hole in the ground, the hole having first been lined with stones and the stones made very hot with a fire built in the hole. In lumber camps the beans are usually put in a bag to be carried the night before they are to be served for breakfast.

Truth Prejudiced

The criminal lawyer believed in being absolutely frank with his clients and accordingly when a man came to him charged with stealing a pig he said: "Now, I will be perfectly open with you. If I take your case you must in the first place tell me honestly 'Did you or did you not steal this pig?'" "Well, yes, sir, I did," the man admitted. "But I have a big family and no money, and I was in need of meat for them."

"That's all right," replied the lawyer. "You bring me half that pig and I'll take on your case."

When the case came into the court the lawyer addressed the jury thus: "The man did not get any more for the pig than I did."

The verdict was "Not guilty."

Shaves and Monocles Are Taboo in Germany

Berlin.—Fashion's decree for German men this summer condemns the smooth shaven face so much in vogue since the war, when the upturned noses mustache were out.

Now the Berliner of mode must wear the little military moustache bunch of hair on his upper lip, and also abandon the monocle. With the single eyeglass the horn-rimmed spectacles is banned, and gentlemen are supposed to wear the conventional and unobtrusive gold or rimless glasses.

They also are warned not to wear four-in-hand ties fully exposed and not to rock them between the second and third buttonholes of old-style jackets. All handkerchiefs in tabard and white linen is required. But with these conformities to the conservative fashions of the West comes a vogue among the ultra set for high-heeled shoes of the old Cuban style.

Fur Coat Trimming Is Again Fashion Favorite

Early New Englanders

Fond of Their Beans

In the absence of positive information on the subject of the origin of Boston baked beans in their place on New England breakfast menus this conjecture is offered: In the early days of the Plymouth colony people did their baking in brick ovens. These ovens were heated on Saturday and enough baking for the week was done at that time. As the oven cooled off the temperature was just right for beans which need long slow cooking so they were thus ready to be eaten on Saturday night and were probably put back into the oven to keep hot and these were eaten for breakfast on Sunday morning. Many New England people reheat them and eat them for breakfast each morning until they are gone, and some people who hate them on Wednesday continue to serve them for breakfast until the Saturday beans are baked. In northern New England beans have been baked from time immemorial in a hole in the ground, the hole having first been lined with stones and the stones made very hot with a fire built in the hole. In lumber camps the beans are usually put in a bag to be carried the night before they are to be served for breakfast.

Hand-Painted Ribbons Used for Trimmings

Hand-painted ribbons are the latest "ultra" among the extravagant trimmings. These, in fine grades of satin and nettes, are such width, the design being done in bold flower and nouveau art patterns. A charming ribbon intended to be used as the elaborating part of a gown of soft material is painted in a soft suggestion of peacock feathers. The gaudy cost adds several dollars the yard.

Narrower ribbons hand-painted in delicate flowers or figures, are to be had in thin bands or as a dainty finishing touch on the neck and sleeves of soft gowns and blouses.

A great variety of trimming is being featured, repeating the new note to many of the imported models. An absolute novelty is a band of narrow crisp ribbon loosely braided in geometric or conventional patterns, to be used on the more elaborate crepe gowns and wraps. It may be had in widths from 1 to 6 inches. It is woven in black and while hick and silver or gold and in the combination of color seen in the "candy" waist needlework.

Red With Blue Is Used for Children's Clothes

With materials so varied in texture and so lovely in color it is not surprising to find children's garments more interesting than their have ever been.

There is a marked penchant for red used with very blue or combined with white. Both green and yellow are chosen for wreaths, while powder blue is the shade in which several different models of coats are developed. These are of homespun and are fashioned on the simplest of tailored lines. To wear with a coat of this type there are hats of the same tone made of straw or silk.

Handbag May Match or Contrast With Costume

The ensemble idea is responsible for the close uniformity which exists between similar styles and the mode of course of the costume motif upon the purse is not the only manifestation of this tendency—it is equally important that the outline of the bag coincide with the silhouette of the coat or dress. Thus in the days of the bouffant silhouette the ample pouch bag was in vogue, while today and ever since the vogue of the straight slender outline, the large flat envelope bag with or without a handle has been the leading style.

There is no set color scheme for the handbag this season. It may match the rest of the outfit or it may vividly contrast with it. This easy interpretation satisfies the woman who is anxious to inject a striking color note into her costume but who is little timorous about employing coat or frock thereto to select a bag of garish hue and thus gratify her urge toward lively coloring.

One prominent Paris dealer has a full collection of new purses, card cases and handbags made of basket woven strips of metal and black moire ribbon forming alternating squares. The ribbons are about half an inch wide. The metal effects are in both antique gold and platinum. The bags are exquisitely designed and look more like jewelry than fabric. Another novelty purse by this designer is a white lace purse in a poplin waist, fastening with a tongue buckle of colored enamel. A third is of white fabric embroidered in pure Persian bird and flower designs in multi-colored silks.

MIGHT ALTER CASE

Three's a Crowd

Tourist (standing on small island)—

Who lives here? My friend?

Man on Landing—Just me and my wife and my sister-in-law.

Tourist—And what sort of a place is it?

Man—Oh, an awfully nice place for scandal.

He—if I had my life to live over again, I'd marry you just the same.

She—And wouldn't I be consulted in that case?

He—If I had my life to live over again, I'd marry you just the same.

She—And wouldn't I be consulted in that case?

He—If I had my life to live over again, I'd marry you just the same.

She—And wouldn't I be consulted in that case?

He—If I had my life to live over again, I'd marry you just the same.

She—And wouldn't I be consulted in that case?

He—If I had my life to live over again, I'd marry you just the same.

She—And wouldn't I be consulted in that case?

He—If I had my life to live over again, I'd marry you just the same.

She—And wouldn't I be consulted in that case?

He—If I had my life to live over again, I'd marry you just the same.

She—And wouldn't I be consulted in that case?

He—If I had my life to live over again, I'd marry you just the same.

She—And wouldn't I be consulted in that case?

He—If I had my life to live over again, I'd marry you just the same.

Le Gendre Sets New World Mark

Robert Le Gendre, former George Washington University star and now wearing the colors of the Newark (N. J.) A. G., sets a new world's record of 22 feet 6 inches in the broad-javelin event of the pentathlon at the Olympic games in Columbus stadium. Bob gave most of his energy to the broad jump and fell behind in the other four events, scoring third for the whole pentathlon. The photograph shows Le Gendre throwing the javelin.

UELER SAYS HIS EYES ABOUT WELL

Hopes Impaired Vision Will Become Normal.

Baseball fans generally throughout the country have noted with satisfaction this season the work of Manager George H. Sisler of the St. Louis Browns and the hope is now entertained that eventually his impaired vision will become normal.

Voted the most valuable player in the American league during the 1922 season, Sisler was stricken with influenza in February, 1923, and his condition was aggravated by a brain tumor and resulted in complete loss of impaired vision which caused his retirement from the game for the 1924 season. For a time it was feared that his baseball days were over, but Sisler gave his eyes a careful, patient course of treatment and rest.

With the opening of the 1924 season Sisler assumed his regular position at short base in addition to managing the Browns. He admits that the defect in his vision has not entirely disappeared, but with his eyes constantly improving, he is optimistic that his sight will gradually return to normal.

Manager George Sisler.

Left: The defect, he declares, hampered him in hitting, but its effect upon his fielding is negligible.

Stengel's Wise Crack Held Hecklers Back

Casey Stengel gets off a wise crack once in a while which holds the hecklers down. When the Braves were playing in Pittsburgh the other day, the fans got after Casey while he was on his way to the beach. It so happened that the Braves were leading by the score of 6 to 2, with little chance of the Pirates catching up.

"You folks, I'm growing old, and my eyes are going back on me," said Casey. "I can scarcely see the score board. Now, won't some kind person up there tell me what the score is?" They had more respect for the on-fielder after that.

Although Sisler has been batting this season below his usual average, he attributes this to periodical absence which all ball players experience.

Alfred M. Wilson of Minneapolis has been elected captain of the Yale crew for next season.

Perkins, one-armed member of the Indian Hill Golf club of Illinois, has a hole-in-one to his credit.

If our athletes are not careful other nations will lose interest and fail to send competitors to the Olympic games.

If the principal object of a vacation is change, it's a wonder some of our incurable goiterers don't work on hollidays.

You get another idea of what higher education means from the fact that a good variety football coach receives a bigger salary than the president of the university.

George Carpenter, the French heavyweight, has boxed in every country in the world where the sport of boxing thrives. It is said that he has never a record in gate receipts that has been equaled by any other ring man.

Sportsmen—Attention!

LET us help you make your next hunting trip the most successful one of all. Here we have the things you'll need for camp and in the field.

Here are a few suggestions:

Shotguns	Rifles	Loaded Shells	Cartridges
Compasses	Flash Light	Hunting Knives	
Vacuum Bottles		Lantern Kit	
Game Calls	Hunting Clothing	Dog Collars	Camp Equipment, etc., etc.

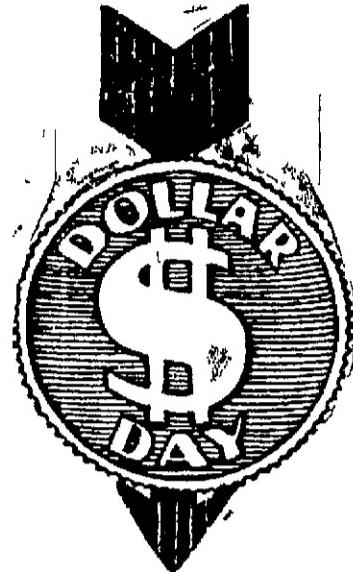

Take along a good supply of Remington Game Loads. They are scientifically loaded to a uniform standard of velocity, pattern and penetration with moderate recoil—specific loads for specific game—the right load, the best load—for the game you are going to hunt.

Gillmore Wins Sculls

English Stars Will Coach Yankee Teams. Tamping offers what some of the stars of the association football game of England are receiving from America to come to the United States and act as coaches are creating concern among England's soccer fans. One of the big surprises, however, is that a player named Hill, for whom a large fee was paid by his club, Burnley, last year, has not yet signed a contract of coaching with the club for next season. The reason for this is stated to be that he is considering an offer to take up coaching in the United States.

LOUIS WILSON HAS MADE FINE START

Virginia Rookie Slugs Way to Fame With Giants.

Louis Wilson, the Petersburg (Va.) boxer of last year, who was an ordinary baseball player equipped with the regulation soft leather glove, the marks he leaves around home plates and bases of the big leagues these days are the tracks of a real big hogie wolf. Wilson has made the wildest dreams a kid ever had come true. No pugilistic hero-king ever had anything on this burly ball player.

Called from Virginia last fall by McGraw, he is now bat-telling well over \$600, and his cannon-shot drives have made him a favorite with all the fans. He is a fast runner and is playing the outside in sensational fashion.

Short, squat, fast, burly Wilson, the Chas B. bushwhacker, has moved a mighty swash. He is a Chester (Pa.) boy, just twenty-four years old. He was sold to McGraw for \$6,000. Fancy! And McGraw paid \$75,000 for O'Connell. Great sluggers are born not made, and no man may know them until they

The first national amateur rowing regatta was held at Philadelphia in 1872.

The world's women's swimming record for 80 yards straightaway is 23.8-0 seconds.

The present year marks the semi-centennial of the introduction of lawn tennis into the United States.

A golf club membership is given free by one Chicago real estate firm to every purchaser of a residence lot.

After a fellow has played three or four rounds of golf he usually is willing to let the home weds take their own course.

By coating the balls and flags with phosphorus the golf bugs of McPherson, Kan., are able to indulge in their favorite sport on moonlight nights.

Twenty Golfers Play in Walker Cup Meet

When the American and British golfers tee up at the Garden City Golf club in September for the Walker cup competition there will be 10 on a side, eight of whom will play in the team match and two of whom will be reserves. The Royal and Ancient club recently voted to the United States to receive the Thomas Trophy for approval for that number and the national body agreed to the suggestion.

Hornby came direct from Class B to the 500 batting class in the majors. This Wilson boy seems to be the pride wolf of the pack since Hornby came from the brush. He has a long way to go up the Hornby trail to the heights, but he has made a grand start.

Mrs. Walter R. Cox, wife of the noted harness horse trainer, won the \$100 prize offered by Thomas Taggart for an epitaph for the monument over the grave of Peter the Great. 2-07-1-L

GULBRANSEN
The Registering Piano

Only the Gulbransen Registers "Touch"

A piano, played by crank-roll-and-pedal, that positively registers personal "touch."

Which means—a piano-ell-folks can play as skillfully, with all the expression and feeling possible to the best hand-playing!

This is the latest and most amazing development in the art-of-piano-making—a new-day musical instrument indeed—the Gulbransen Registering Piano.

Registering your "touch." This is the thing about the Gulbransen that has so stirred the imagination of the music-hungry public—that has

awakened, too, the interest of many capable pianists in the artistic possibilities of the Registering Piano.

Just realize what it means to the present generation of music-lovers—the children too much occupied at school to have time to practice, the men deeply engrossed in their work, the women of the household busily engaged with home and social affairs—that in spite of these handicaps each and all may enjoy the very highest type of piano music, without study or long practice—and music, played by each, with his or her own personal "touch."
